Re: Document Request (891-01)

Dear Alan:

I have been unable to get telephone calls to four different numbers in your office answered, so I am writing and faxing this letter to you to request a copy of the document referenced in the Draft Hot Spot Feasibility Study New Bedford Harbor, May 1989 which was submitted to us on June 9, 1989 under cover letter from Charles C. Bering from EPA. The document is on page R-5 of the reference section. It is by Richard J. Pruell, 1988 letter report to Douglas Allen. We would appreciate receiving that document at your earliest convenience. I have spoken to Doug Allen directly. He said he would attempt to find the letter report and discuss with you how to get it sent to us. I look forward to your immediate response.

Very truly yours,

Richard J. Hughto, Ph.D., P.E.
